

CUSTOM GRADE MARINE HARDWARE

No. 0010 Port Light

This popular port light was designed for fiberglass sailboats and is used exclusively by many of the high quality boat builders. The lens frame has concealed fastenings, no screw showing. Available in both solid bronze and aluminum. Aluminum port lights are one-third the weight of bronze. All material is cast from certified ingots in alloys with the best corrosion resisting qualities.

SIZE OPENING	CLEAR GLASS	GLASS THICKNESS	DIA. FLANGE	NO. BOLTS
3 7/8" x 7 5/8"	3-1/8" x 6-7/8"	3/16"	5 1/2" x 9"	2
